

1 I want to talk about what I do in science class, In the begining of the class we mostly did like imformation about the moon and see like diffrent kind of them like waning crecent. Another thing we did at the begging of the school year is talked about the ecosystem And other things. Another thing who inspired you to do what you do your mom your dad or your self. Is your mom and dad happy for you for working at this job. James im really happy for you that you made it this far hope you get boosted up in your class.

2 Somebody I look up to is my family and to my friends that is nice to me. And the kind of art that i like to do is art and nature. And there is times that i want to go to a diffrent schools in my life but i do not want to leave my friends. Did you like science when you was in 6 grade have you ever wanted to change schools. And when you was in 6 grade did you like science at that time before you start helping the city.

3 James I want to thank you for all the letters And thank you for having the time to write me back. And I want to thank you for all the work you did for your city and other citys. A couple more things I want to thank you for is for telling me your hobbies im going to try some of the stuff you do for a living. Two more things I want to thank you is telling me personal imfo about your job and how you do it. James I want to thank you for being my penpal once again i love you to be my penpal and I want you to stay my penpal.

4 question about your job

How old do you have to be to work at your job or do you need a ID. In my school we got cortin grades you got to be in to go to this school 6/12. I really want to try your job and you try my job at school it would be fun i wish i was in your shoes. James did you got to collage and get your dagree. When you write me back can you tell me how old you got to be to work at your job thank you.

5 Imfo about science class and animals we got in hear

In my science class we got a lizard in a tank that eats worms its funny how they eat they just throw them in there mouth. Another animal that we got is guppies all they do is eat sleep and swim every time I watch them they move so fast. Something else that we got in the fish tank with the guppies is snails that just sleeps all day but its cool to watch them move slow. Have you ever watched zootopia the person name flash that is how fast the snail is. I want to tell you what were doing in class right now were growing plants in the class room have you ever did this.
