

Hello, it is me again,

I would like to start this letter with what is happening in science. So, in science we have changed a bit we got some very cool surprises when we came back a while ago we got pet lizards that are very small and so interesting everyone loved them and still do, we also got a very small fish I believe is called a guppy and some snails. Next, we have started a new project for the end of the 3rd quarter we have planted seeds and are tracking their growth with two cups one that is crowded - which means that we put the seeds very close to each other, and non-crowded which is where the opposite is true and we just planted them normally with plenty of space.

Now for some questions on you and your job. First what got you to choose the job you have now, was it someone, some experience or something else? Next, when you were a child what job did you think you were going to have, and is there a reason for you thinking that? Finally, I would like to know if you have a special quote or saying you like or use sometimes?

Finally, to my favorite part of the letter the part where I tell you what my plans are for spring break. Well my sister will be going to Florida for the whole spring break give or take a day or two. But I will be back in my house sleeping, eating, taking naps, watching T.V, and shooting my bow and arrows. That is most of my plan but the rest is to read a book or maybe five or six, then I will write and work on really funny presentations I make with cat and dog memes and other really funny things they are hilarious.

Now since you answered my questions I will now answer yours. So first you asked me if spring was my favorite season my answer is summer because when it is summer I get to go to a camp with all my friends, I also have lots of memories there of my childhood. Next you asked

So to end this letter I will just say that it has been a pleasure being your Pen Pal, or were you *my* Pen Pal which ever It was it has been a pleasure writing these letters. I wish you a very good rest of this year and just maybe there might be a fifth letter but I am not sure so don't get too excited because I hate for anyone to do that and then not get it. One more thing to say is that if you were wondering why I never use the beginning Dear _____ it's because I just don't like that kind of beginning.

Sincerely

Joel
